RURAL ENTREPRENEURSHIP **WORKSHOP**

"The real solution to the problems of this country is production by its masses and not mass level production."
- Mahatma Gandhi -

Through partnerships with existing resources such as Great Basin College, StartUpNV, EDAWN, UNR, NNRDA, Audacity Fund, GOED, the Nevada Small Business Development Center, and Nevada Cooperative Extension, we will create entrepreneur network with rural entrepreneurs to support them through all levels of business cycle. To be a part of developing global economy, Nevada needs to utilize the talent and idea generation of its people.
